

# NyTROBOX X Hybrid Receiver **DVB-T2/C**

The H.265 DVB-T2/C receiver is a modern and versatile device that delivers top-quality Full HD 1080p resolution. With support for the H.265/HEVC codec and a wide range of video outputs (HDMI, SCART), it is perfect for both modern living rooms and older TVs. It features functions such as PVR and Timeshift, allowing you to record your favorite programs and pause live broadcasts. The multilingual menu, channel list editor, and parental lock ensure convenient and safe operation. With low power consumption in standby mode and the ability to update firmware via USB, this receiver is an excellent choice for anyone who values functionality and modern technology.

## Main Functions:

- DVB-T2 H.265/C tuner
- Full HD 1080p
- MPEG 1/2/4, H.265/HEVC
- Video Output: SD/HD HDMI 1.4, SCART (CVBS)
- Multilanguage OSD
- 7 Days EPG (Electronic Program Guide)
- Favourite channel list editor
- PVR/Timeshift 20 Timer settings
- Parental lock for channels and menu
- Media Player
- Subtitle & Teletext support
- Audio decoder AAC/AC3/PCM
- 4 Digit LED display
- Auto Stand-by mode after 3 hours
- Low power consumption in Stand-by mode under 1W
- Fast program switching
- Firmware upgrade via USB
- USB 2.0
- 2000 TV and radio channels capacity

# Nytrobox X Hybrid Receiver

## HARDWARE SPECIFICATION:

### Tuner and Decoder

DVB-T2 H.265/C Tuner: Supports the latest DVB-T2 standard, offering efficient compression with H.265/HEVC for superior video quality at reduced bandwidth. MPEG 1/2/4 and H.265/HEVC Compatibility: Ensures smooth playback of various video formats.

### Video and Audio Outputs

HDMI 1.4 Output: Provides high-definition video and audio transmission to modern TVs and monitors.

SCART Output: Allows connection to older TVs or AV equipment.

Coaxial Digital Audio Output: For high-quality audio connections to sound systems or home theaters.

### Display and Indicators

4-Digit LED Display: Displays channel numbers and system information clearly.

### Compact and Durable Housing

The receiver has a sturdy and compact design, making it suitable for various setups. Cooling Vents ensure proper heat dissipation for consistent performance.

## INPUTS:

- ANT IN - For connecting an antenna.
- HDMI - High-definition multimedia interface for connecting to modern TVs or monitors.
- COAXIAL - For digital audio output to sound systems or speakers.
- SCART OUT - For older TVs or devices with SCART support.
- DC IN (12V, 1.0A) - Power input for the device.
- USB 2.0

## SOFTWARE FUNCTIONS:

### EPG (Electronic Program Guide)

Allows you to view program schedules up to 7 days in advance, making it easier to plan your viewing.

### Favorite Channel List Editor

Enables you to create and modify lists of favorite channels, providing quick access to your most-watched stations.

### PVR and Time-shift

The PVR function lets you record your favorite shows onto a USB storage device, while Time-shift allows you to pause and rewind live broadcasts.

### Parental Lock

Allows you to restrict access to selected channels and menu functions, ensuring control over the content available to children.

### Media Player

Supports playback of multimedia files such as movies, music, and photos directly from a connected USB drive.

### Subtitle and Teletext Support

Offers subtitle support for movies and shows, along with teletext functionality for additional information and user convenience.

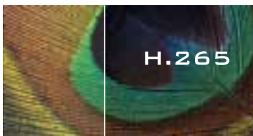

### Automatic Standby Mode

The receiver automatically switches to standby mode after 3 hours of inactivity, helping to conserve energy.

### Firmware Upgrade via USB

Users can easily update the receiver's software to access the latest features and improvements.

## H.265

High Efficiency Video Coding (HEVC) - the video compression standard developed as the successor to H.264 / MPEG-4 AVC (Advanced Video Coding). HEVC double the data compression compared to H.264 / MPEG-4 AVC while maintaining the same image quality. It supports resolutions up to 8192 x 4320, which makes it a codec capable of compressing UHD TV streams.
